

The SEDOL Parent Advisory Board (PAB) is forming a Parent Advisory Committee comprised of parent representatives from each of SEDOL's member school districts and SEDOL building programs. The purpose of this committee is to help advance the Board's mission by:

1. Establishing a relationship with key personnel in your district/school,
2. Participating in established parent support groups for families whose children receive special education services—or assisting in the development of such a group, and
3. Communicating the Parent Advisory Board's mission, goals, activities, and educational opportunities.

Our Mission Statement:

The Parent Advisory Council is an organization of parents in SEDOL's 36 member districts who have children receiving special education services. **Our mission is to advance the educational lives of our children through communication, partnership, and change.** In collaboration with the staff that supports our children, we will strive to increase awareness of individual differences, bridge the relationship between school and home, and provide opportunities for on-going training and education for all.

Please assist us by nominating at least one parent from your district/school who exhibits leadership qualities to be considered as a member of the SEDOL Parent Advisory Committee.

Nominating District Special Education Director/SEDOL Principal: (include district #/school name)

I would like to nominate the following parent for a position on the SEDOL Parent Advisory Committee:

Name: _____ Contact Information: _____

Special education services are provided for the child(ren) of this parent through: (circle one)

District Program
